SALE PENDING ON **GUANO ISLANDS**

A Party of Sugar Co. and Guano Officials Sails For Property.

EXPERTS ACCOMPANY THEM

SALT LAKERS RETURN FROM FORT HALL RESERVATION.

THAT a big deal, involving the sale of the Utah Guano company's possessions in the Great Salt lake, is on the tapis, cropped to the surface yesterday afternoon when it was learned that a party of fifteen or twenty officials and representatives of the Guano company and Utah Sugar company was to take an evening train to Saltair and at 9 o'clock embark in the cutters Cambria and Louise for Gunni-

Included in the party were Joseph F. Smith, W. S. McCornick, T. R. Cutler, John C. Cutler, jr., and Joseph Geoghegan of the Sugar company; P. W. Mad-sen, president of the Guano company; Professor Widtsoe of the agricultural college, and Professor Herman Harms, the city chemist. Many others were included in the party that sent out to the lake all the supplies necessary to made the trip in comfort, and, fair sailing weather permitting, the voyagers will return tonight or tomorrow. It has been an open secret for some time past that the sugar manufacturing interests wanted to land the property of the guano company in order that the deposits might be used to fertilize the lands of the sugar beet rais ers of the state, rather than see ther disposed of in a competitive market For years the locators of the guandislands fought their claims on the contention that guano was a mineral, an as such subject to entry under the mining laws. They finally won their case, and a few months ago a compan-was organized to handle the deposits and for some time past preparations to begin its marketing have been under way.

That the action of the guano com pany has had the effect of stirring u departure for the islands in company with experts, and the chances are mor than even that a few days will witnes the clinching of a sale of the entir

property.

No intimation was to be had lass evening of what figure is involved, bu as the deposits amount to close to 750,000 tons, according to estimates with an average market value of over \$20 per ton, the figure named is n doubt a handsome one.

BACK FROM THE STAMPEDE.

Salt Lakers Nail Four Copper Claim West of McCammon.

R. G. Wilson and John A. Hunt re turned yesterday from a participation in the rush into the ceded portion of the Fort Hall Indian reservation thrown open on Tuesday last, and whi they were successful in planting them-selves on four mineral claims, their value, of course, is as yet an unknown

wantity.

"We made our run," said Mr. Wilson, "In company with some McCammon men from that point six or seven mines due west into the Fannock. 200 shares. The company with some west into the Fannock of the Fannock of

main object being to get next to the property that had the ore in sight. "From the limited observations we were able to make in so short a time, I am led to believe that the belt we located upon is the same as that described as being found within the five-mile limit east of Pocatello, and some good mines may be found in it."

Mr. Wilson said the reputed gold

section is in the Portneuf range east of McCammon, and running north parallel with the Bannock range. All the streams were swollen and he and his associates decided not to attempt a trip into that portion of the reservation, at least until later in the season.

UNCLE SAM SECOND CLASS.

Trial Shipment of 100 Tons Now Being Made Up-No Water Yet.

had been made during the day, he thought arrangements would shortly be perfected. A trial shipment of 100 tons of second-class ore is now being made up, as that is considered the only sure way of determining just what can be done with it.

This lot will reach the smelter early in the coming week and the returns being satisfactory, teams will be employed and a regular tonnage will then be sent to market.

FINE LOWER MAMMOTH ORE.

Twenty-six-ton Lot Sold Yesterday For \$1,316.60 Net.

The Lower Mammoth company sold a carload of ore containing twenty-six dry tons yesterday on controls showing 106.9 ounces silver, 7.4 per cent lead, \$1.80 in gold, with an excess of iron over silica of 14 per cent. The lot netted the company \$1,316.60, or with-in a fraction of \$50.65 per ton-not at all bad, considering the price of the metals.

It is reported that the bottom of the shaft at the 1,100 level has been aropped fifteen feet into the sulphide ores that made their appearance Saturday, though the average is not high enough to call it a shipping grade, Development alone can determine worth. The car marketed yesterday came from different parts of the mine, which is said to be looking better than at any time in its history.

FAILED TO REACH THUNDER.

Provo Mining Man, Knocked Out Isle Royale

Provo, June 19.—St. V. Le Sieur has Old Dom. just returned from a trip into Idaho on which he started March 23, his ob-jective point being Thunder mountain. He was taken down with dropsy, brought on by exposure, when within about twenty-five miles of the new Eldorado, and was compelled to make camp and wait till he partially recov-

The season being so late and the re-

ing so unfavorable, he concluded not to risk going farther in and turned back. However, he says the district may prove to be another Chipple Creek, which was condemned by experts for a long time after attempts were made to call attention to it as a mining dis-

On his way out Mr. Le Sieur located some claims in the Silver Creek dis-trict, near the Singiser mine, about seventy-five miles this side of Thunder and beyond Challis, which he is confident will repay him for his trip, now that he is recovering, though at one time he did not expect to live to

MINING STOCK EXCHANGE.

Business Yesterday Was a Little Brisker-Daly-West Still Weak.

Business on the mining exchange yesterday was somewhat better than on the day or two preceding, and still, were the transactions in Daly-West and Daly-Judge eliminated, the total amount of money involved would look pretty small. According to the record, however, there were 28,805 shares of stock sold for \$21,715.

Daly-West, on the exploitation of stories to the effect that no increase in dividends would be ordered, as the company intended to take over the Little Bell on a basis of \$400.000 for the property, continued weak and in the beginning sold at \$43.90. In the afternoon it sold for \$44 and was held for 10c a share more at the close.

en Butler was quite it to 8%c, and Consolidated Mercur to 8%c, and Consolidated Mercur ne out with 1,200 at \$1,95@1,96%. alifornia was strong at 13c to 13%c alifornia was strong at 13c to 13%c 'alifornia was strong at 13c to 13% of 300 Century were secured at 20c, May y fell to 19½ c and Star Consolidated

to 19c.

Uncle Sam was in better form at 30%c to 31½c. Utah sold at 50c and 49%c. Lower Mammoth at \$1.22, Tetro at 20c, Sacramento at 23½c. La Reine at 10¼c, Little Chief at \$c and Northern Light at 4c.

Ajax and Carlsa remained practically unchanged, while Yankee fell from \$1.22 to \$1.17½. On the open board 700 shares of Daly-Judge sold at \$7, and the day closed on the following record of final quotations

St. Paul Preferred So. Pacific Total sales...583.000 PARIS AFTER OUR WHEAT. Corn Took a Back Seat Yesterday-

Oats Dull.

Chicago, June 19.—Corn, though fairly active for an ordinary day, dropped back into second place today. Wheat ruled uniformly strong throughout the session. At the start Paris cables showed rapid higher, while deferred futures showed 3½c advance. There was talk of some "dealings" on Paris, but it must have been of great proportions, for it influenced material upturns in flour. Wet and cold weather abroad was talked of and some traders were of the opinion that French stocks of wheat were about depleted. It takes 7,000,000 bushels weekly to supply that country. This influence was abetted by firmness in Liverpool cables. Wet weather here also had its influence, There was rain in many parts of the winter wheat country. Kansas, where cutting is now in progress, reported much moisture in the yield and that a considerable quantity of the harvested wheat would not grade contract because of the dumpness. This talk alarmed the shorts. Covering started a good upturn and stop-Karl's Clover Root Tea corrects the Stomach

loss orders were met on the advance. July opened a shade to 10% to higher at 72½ to 72% dipped to 72% 67½ and then mounted steadily to 73½. Towards the close some wheat came out for profits and July dipped a trifle. The close, however, was strong. July 26 die up at 73%. After some fair early strength shown in the corn pit by reason of a desire of a few belated shorts to cover, this pit assumed something of a somnolent state. The feeling was still tense and at times there were little excited flurries. Prices at such times fluctuated somewhat erratically. As the day wore on, however, it became apparent that the bull leaders were letting the market care for itself. July sold between 66 and 65, covered differences of 12 several times and closed easy. 12c down, at 6514.

Oats were dull and worked over a range of only 12c. July closed 12614c up at 39140.

Provisions showed good strength and

Provisions showed good strength and air activity. July pork closed 15c up, and 124615c up and ribs 15c up. The leading futures ranged as 'ollows:

And light dressings with CUTICURA, purest of emollient skin cures. This treatment at once stops falling hair, removes crusts, scales, and dandruff, soothes irritated, itching surfaces, stimulates the hair follicles, supplies the roots with nourishment, and makes the hair grow upon a sweet, wholesome, healthy scalp when all else fails.

Millions Use

CUTICURA SOAP, assisted by CUTICURA OINTMENT, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff and the stopping of falling hair, for softening, whiteustopping of railing natr, for softening, whiteing, and soothing red, rough, and sore hands, for baby rashes, itchings, and chafings, and for all the purposes of the toilet, bath, and mirsery. Millions of women use CUTICHEA SOAPIN the form of baths for annoying irritations, inflammations, and chaings, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sanative, antiseptic purposes which readily suggest themselves to women.

Complete Humour Cure, \$1. CUTICURA SOAP (25c.), to cleanse the skin of crusts and scales, and soften the thickened cuticle, CUTICURA OINTMET (50c.), to instantly allay itching and inflammation, and scothe and heal, and CUTICURA RESOLVENT PILLS (25c.), to cool and cleanse the blood.

CUTICURA RESOLVENT PILLS (Chocolate Coated) are a new tastless of orders, conomical sub-CUTICURA RESOLVENT PILLS (Chocolate Coated) are a new, tasteless, dorless, económical substitute for the celebrated liquid CUTICURA RESOLVENT as well as for all other blood purifiers and humour cures. In screw-cap vials, containing 60 doses, price, 25c.
